

## TEN LAWS OF AIRTRAVEL

1. The closer you get to the airport, the greater the worry that you forgot to lock the back door.
2. Nobody has ever been known to read the Terms and Conditions on their ticket.
3. All mirrors in aircraft toilets make you look ill.
4. Food trays always look fuller after you've finished eating.
5. Sleeping on planes makes your mouth taste horrible.
6. Hand luggage small enough to fit under the seat in front of you has not yet been invented.
7. The Duty-free trolley is specifically designed to impede progress to and from the toilets.
8. People still think that if they stand up as soon as the aircraft comes to a halt, they will be able to get off quicker.
9. There is no solution for people who carry sombreros.
10. The more nonchalant you are when going through Customs, the guiltier you will look.
